In 1990, the Authority received the first federal funding for the acquisition of 36 scattered site single family dwellings.

In 1992, 1994 and 1996 – 50 sites were added each year.

- 34 – Two Bedroom Homes
- 118 – Three Bedroom Homes
- 34 – Four Bedroom Homes

These properties allow families to locate within the general community, develop relationships with their neighbors, and have privacy and responsibilities of a separate dwelling.

The amenities and features will vary from house to house, but most will feature air conditioning, carpeting, appliances and garages.

In the growing Las Vegas Community, these are an investment both for the residents and for the Agency.
